

Report

I just wanted to share with you all some news about the new minibus purchased for cadets at 2410 Didcot Squadron Air Training Corps, using money granted by your organisations alongside money raised by the squadron.

Last weekend we took the old bus down to Swindon in part exchange for the replacement minibus. The old one broke down twice on the way. Our new minibus is a 6 month old Ford Transit 17 seater and cost £ 28,500. On Thursday this week our new building was formally opened by Commandant Air Cadets, so we took the opportunity of asking her to formally handover the keys for the new minibus at the same time

I share with you a picture of that handover. I wanted to formally thank you and your organisations for your support in achieving this success.

John Endean
Chairman 2410 Didcot Squadron
Air Training Corps
